IN RECOGNITION OF THE ROTARY
CLUB OF SACRAMENTO'S 100TH
ANNIVERSARY

HON. DORIS O. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 20, 2014

Ms. MATSUI. Mr. Speaker, I rise today to recognize the Rotary Club of Sacramento as they celebrate the 100th anniversary of their founding. As members and supporters of this fine organization gather, I ask all my colleagues to join me in recognizing the Rotary Club of Sacramento for a hundred years of incredible service to the Sacramento region.

For a century, the members of the Rotary Club of Sacramento have stayed true to their mission, which is to "encourage and foster the ideal of service." They have successfully done this by providing Rotarian's time, talent and fundraising abilities to improve the quality of life for groups and individuals throughout the Sacramento area. One of the greatest things anyone can do for their community is to invest in the future of our youth. The Rotary Club of Sacramento understands the importance of offering a hand of service to youth organizations and they have worked with over 250 non-profit organizations that include the Boy Scouts, Girls Scouts, Boys and Girls Club, Sacramento Children's Receiving Home, Sacramento Children's Home, WIND Youth Services, Society for the Blind, BloodSource, YMCA, Sacramento Zoo, Sacramento Library and Powerhouse Science Center. Additionally, the club sponsors the Burt Chapell Golf for Kids Golf Tournament which benefits orthopedically handicapped children. The golf tournament had its inaugural tournament in 1927 and is the longest continuous event in all of Rotary.

Much of the world has changed over the last 100 years, but one constant has been the Rotary Club of Sacramento's service to our community. The Rotary Club of Sacramento has the distinction of being the 85th oldest club in all of Rotary International and it has grown to be one of the twenty largest clubs in the world. The club started with 34 members and now has over 500 members. Members of the Rotary Club of Sacramento come from a wide variety of careers, backgrounds and cultures, which has given the club a unique perspective and a shared passion for service.

Mr. Speaker, as they gather for their Centennial Gala, I am pleased to honor the Rotary Club of Sacramento and its members for their longstanding commitment and service to the entire Sacramento region. I ask my colleagues

to join me in wishing the club continued success in creating a positive, lasting change in the Sacramento area.

INTRODUCTION OF THE PIPELINE
INSPECTION ENFORCEMENT ACT
OF 2014

HON. JANICE HAHN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 20, 2014

Ms. HAHN. Mr. Speaker, today, I am introducing the Pipeline Inspection Enforcement Act of 2014 to prevent oil pipeline leaks like the one that greatly damaged the community of Wilmington, CA.

Los Angeles is home to one of the most vast pipeline networks in the United States. Both oil and gas pipelines connect the Port of Los Angeles and the Port of Long Beach with the refineries in the area. Therefore, pipeline safety is a very important topic for me and the communities which make up the neighborhoods surrounding the Port of Los Angeles—including Wilmington, a primarily working class community. I have represented Wilmington for over 10 years—first on the Los Angeles City Council, and now as a Member of Congress.

Because Wilmington sits on top of one of the largest oil fields in the nation and a complex system of pipelines, this community lives with a heightened threat of a pipeline leaking or exploding. This became an unfortunate reality for many residents of Wilmington this March when an idle pipeline burst, causing thousands of gallons of crude oil to spill onto a residential street reeking havoc on the lives of families who live in the community.

The legislation I am introducing today would have prevented the damage these families experienced by forcing companies like Phillip 66 to simply have firsthand knowledge of what their pipelines contain and empowering our state regulatory agencies to be engaged in pipeline inspections.

These basic improvements to federal policy would protect countless communities like Wilmington at no additional cost. I look forward to working with my colleagues in Congress to make this legislation law.
